

adolescent attachment questionnaire a pdf

Adolescence (from Latin adolescere, meaning 'to grow up') is a transitional stage of physical and psychological development that generally occurs during the period from puberty to legal adulthood (age of majority). Adolescence is usually associated with the teenage years, but its physical, psychological or cultural expressions may begin earlier and end later.

Adolescence - Wikipedia

Theory. Attachment therapy is a treatment used primarily with fostered or adopted children who have behavioral difficulties, sometimes severe, but including disobedience and perceived lack of gratitude or affection for their caregivers. The children's problems are ascribed to an inability to attach to their new parents, because of suppressed rage due to past maltreatment and abandonment.
