operations management questions and answers PDF Document

4 Chapter One Introduction to Operations Management INTRODUCTION Operations is that part of a business organization that is responsible for producing goods and/ or services. Goods are physical items that include raw materials, parts, subassemblies such as motherboards that go into computers, and final products such as cell phones and automobiles.

1 Introduction to Operations Management

Operations management refers to the activities, decisions and responsibilities of managing the resources which are dedicated to the production and delivery of products and services. The part of an organisation that is responsible for this activity is called the operations function and every organisation has one as delivery of a product and/or service is the reason for existence.
