

case study the zachman pdf

The Zachman Framework is an enterprise ontology and is a fundamental structure for Enterprise Architecture which provides a formal and structured way of viewing and defining an enterprise. The ontology is a two dimensional classification schema that reflects the intersection between two historical classifications. The first are primitive interrogatives: What, How, When, Who, Where, and Why.

This page provides links to my books and web-based writings. Over the years I have published a fair bit of information, some of which is contradictory (although the advice fits the context), on several sites.

Scott Ambler's Articles - AmbySoft

Through conscience and its related notion, synderesis, human beings discern what is right and wrong. While there are many medieval views about the nature of conscience, most views regard human beings as capable of knowing in general what ought to be done and applying this knowledge through conscience to particular decisions about action.

Medieval Theories of Conscience (Stanford Encyclopedia of

Lists of Accused Priests Released by Dioceses and Religious Institutes This page gathers the lists of accused priests (see below) that have been released by dioceses and religious orders, since the first such list was posted by the Diocese of Tucson on June 21, 2002. Bishop Gerald F. Kicanas [3] was co-adjutor bishop at the time, and the Dallas charter's goal of transparency was cited as the ...
