Engineering Specification - fordemc.com

Electromagnetic compatibility (EMC) is the branch of electrical engineering concerned with the unintentional generation, propagation and reception of electromagnetic energy which may cause unwanted effects such as electromagnetic interference (EMI) or even physical damage in operational equipment. The goal of EMC is the correct operation of different equipment in a common electromagnetic ...

The Lab, Design, and Troubleshooting seminar is my three day seminar on design, lab techniques, and troubleshooting which includes about 1/2 day on EMC in designs, ESD in designs, and troubleshooting and measurement techniques in the design lab. I started this seminar years ago and constantly add and update it. A number of people have said to me that it is the best course on any topic they and ...
