## Getting Started Guide to Close-up Photography

The structures of the various objects that surround us on an everyday basis are actually incredible when you examine them close up. Take a look at the following close-up images, and see if you can guess what they are.

### Test: Can You Recognize Everyday Objects Close Up?

Macro photography (or photomacrography or macrography, and sometimes macrophotography), is extreme close-up photography, usually of very small subjects and living organisms like insects, in which the size of the subject in the photograph is greater than life size (though macrophotography technically refers to the art of making very large photographs). By the original definition, a macro ...
