Logic (from the Ancient Greek: $\lambda\omicron\gamma\iota\kappa\acute{\alpha}$, translit. *logiká*, —), originally meaning "the word" or "what is spoken", but coming to mean "thought" or "reason", is a subject concerned with the most general laws of truth, and is now generally held to consist of the systematic study of the form of valid inference. A valid inference is one where there is a specific relation of logical support ...

The previous article in the Speech Preparation Series described how to select your speech topic and your core message.. This article describes how to support your core message with a speech outline, and provides numerous examples. This is the second step in the six-step speech preparation process.. Writing an outline is, unfortunately, a step that many skip.
