Among the things I didn't get with my used Ford Flex was the factory towing package. The factory tow hitch is integrated into the back bumper compared to underneath the bumper with aftermarket hitches.

### **Ford Flex factory hitch project | Unknown Dog**

Since flexbox is a whole module and not a single property, it involves a lot of things including its whole set of properties. Some of them are meant to be set on the container (parent element, known as "flex container") whereas the others are meant to be set on the children (said "flex items").

Create your First Page in Symfony. Creating a new page - whether it's an HTML page or a JSON endpoint

- is a two-step process: Create a route: A route is the URL (e.g. /about) to your page and points to a controller;; Create a controller: A controller is the PHP function you write that builds the page.You take the incoming request information and use it to create a Symfony Response object ...

### **Create your First Page in Symfony (Symfony Docs)**

Aims. This module aims to familiarise the student with the basics of Computer Assisted Language Learning (CALL), beginning with a description of what CALL is all about, its historical development and an overview of different types of programs.

### **English Module 1.4**

I think Modern Compiler Implementation in ML is the best introductory compiler writing text. There's a Java version and a C version too, either of which might be more accessible given your languages background. The book packs a lot of useful basic material (scanning and parsing, semantic analysis, activation records, instruction selection, RISC and x86 native code generation) and various ...
