A step-by-step gentle journey through the mathematics of neural networks, and making your own using the Python computer language. Neural networks are a key element of deep learning and artificial intelligence, which today is capable of some truly impressive feats.

Download Make Your Own Neural Network (PDF) - SoftArchive

Having read through Make your own Neural Network (and indeed made one myself) I decided to experiment with the Python code and write a translation into R. Having been involved in statistical computing for many years I'm always interested in seeing how different languages are used and where they can be best

utilised.
