Adidas Marketing and Branding Strategies Despite Nike's market dominance, Adidas has continued to make its presence felt as a very strong player in sports shoes and apparel industry. If its performance during the last few years

Marketing and Branding Strategies of Adidas - Cheshnotes

A shoe is an item of footwear intended to protect and comfort the human foot while the wearer is doing various activities. Shoes are also used as an item of decoration and fashion. The design of shoes has varied enormously through time and from culture to culture, with appearance originally being tied to function.
