Organizational analysis or more commonly Industrial analysis is the process of reviewing the development, work environment, personnel, and operation of a business or another type of association. This review is often performed in response to crisis, but may also be carried out as part of a demonstration project, in the process of taking a program to scale, or in the course of regular operations.

Organizational analysis - Wikipedia

SWOT Analysis Definition. The SWOT Analysis is a strategic planning tool that stands for: strengths, weaknesses, opportunities, and threats. The SWOT analysis is essential to understanding the many different risk and rewards of any investment.

Porter's Five Forces Framework is a tool for analyzing competition of a business. It draws from industrial organization (IO) economics to derive five forces that determine the competitive intensity and, therefore, the attractiveness (or lack of it) of an industry in terms of its profitability. An "unattractive" industry is one in which the effect of these five forces reduces overall profitability.
