A role-playing game (sometimes spelled roleplaying game and abbreviated to RPG) is a game in which players assume the roles of characters in a fictional setting. Players take responsibility for acting out these roles within a narrative, either through literal acting or through a process of structured decision-making of character development. Actions taken within many games succeed or fail ...

An indie role-playing game is a role-playing game published outside traditional, "mainstream" means. Varying definitions require that commercial, design, or conceptual elements of the game stay under the control of the creator, or that the game should just be produced outside a corporate environment.
